## Intellectual Property

- Intellectual property (IP) refers to the **creations of the mind**: inventions, literary and artistic works, and symbols, names, images, designs, etc.
- Therefore, intellectual property belongs to the **intangible** asset category.
- Intellectual Property Rights (IPR)** can be defined as the exclusive legal rights given to people over the creation of their minds for a certain period of time.

## Section 48- Patents Act

- Patents confer a bundle of rights—the right in a product or a process to:
  - Make
  - Use
  - Offer for sale
  - Sell or
  - Import
- Exclusive right to exclude third parties

I do not think there is any thrill that can go through the human heart like that felt by the inventor as he sees some creation of the brain unfolding to success... Such emotions make a man forget food, sleep, friends, love, everything.

## International Patent Applications

### Paris Convention vs. PCT Patent Application Timeline by WIPO

The diagram compares the timelines for Paris Convention and PCT Patent Applications. The Paris Convention timeline shows a local application at month 0, with international filings starting at month 12. The PCT timeline shows a local application at month 0, a PCT application at month 12, international search and written opinion at month 16, optional preliminary examination at month 18, international publication at month 18, optional preliminary report at month 22, and entry into the national phase at month 30. Costs for translations, office fees, and local agents are noted for both processes.

## Don't Reinvent the Wheel

You don't have to invent the idea.

McDonald's did not invent hamburgers and Starbucks did not invent coffee. Instead, they pursued markets that already exist and did everything better.
